

## The Gold Standard

2008 Nationals Gold Winner –  
Masterplanned Community of the Year

Southshore  
Aurora, Colo.

### THE STATEMENT

**W**ater defines us. From the 11,000 square-foot Lakehouse, to the Boathouse on Senac Lake, to 96 acres of open space and parks, to 14 architecturally inspired model homes and breathtaking views – you can only find this idyllic life in one community. An infinity pool, kids' splash park, boardwalk and firepit, cyber café, movie theater and fitness center are just some of the rewarding amenities. Careful attention has been made to capture view corridors, create exceptional home sites and build sustainable water polishing practice. No wonder Aurora was chosen as the host of this year's Parade of Homes. Aurora is a community built for the ages. This is living blue. **SMI**
